

M01 Scope of Quality /NHSS8 Management System

Introduction

This scope has been produced in line with the requirements of the latest quality management system standard ISO9001: 2015 Clause 4.3 and National Highway Sector Scheme 8 (NHSS 8).

This scope will be made available to all interested parties.

The scope details the type of products and services covered and justification for any requirements not covered by the scope.

Scope of our Management System

TWM operates in Winsford, Cheshire. We provide products nationally to domestic & commercial customers within the public and private sector. We specialise in highway and electric vehicle charging infrastructure products.

All parts of ISO 9001: 2015 standard and NHSS8 Scheme applies to the TWM business.

The approved administration systems apply to the following:

The design, manufacture, installation, supply and servicing of interactive warning signs, signals and traffic control systems, in accordance with National Highway Sector Scheme 8 for the overseeing, installation and maintenance of highway electrical equipment and supporting works, illuminated traffic control equipment, variable message signs and associated apparatus.

Supply, installation and maintenance of Electric Vehicle Charging Infrastructure for the private and public sector, with specific focus on commercial, on-street and domestic users.
